CASTLE IN EXCLUSIVE SPONSORSHIP WITH FOOTBALL MASTERS

Castle Computer Services, one of Scotland's leading software and hardware services companies, will be the sole shirt sponsor at this summer's Scottish Masters Football tournament.

This sponsorship deal, worth £20,000, means that Castle's name will appear exclusively on the shirts of all of the teams competing in this year's tournament – Rangers, Celtic, Hearts and Motherwell.

The Scottish Masters Football tournament is a 3 hour six-a-side event that takes place this year at Braehead Arena on Sunday 2nd July, with tickets available from www.mastersfootball.com.

The tournament features football legends from the past. Regular participants include Ally McCoist and Frank McAvennie. All four teams will take part in a round-robin format and the winner of the Scottish regional event will go through to a national UK final at Birmingham NIA in September; this will include the winners of seven other regions, involving teams like Manchester United, Liverpool, Arsenal and Chelsea. The entire tournament will be broadcast live on Sky Sports.

Alan Quinn, Managing Director at Castle Computer Services said, "We are delighted to be the sole shirt sponsor for this year's Football Masters and are looking forward to seeing the Castle brand on four of the Scotland's top club strips."

Castle has offices in Edinburgh and Glasgow; and employs over 50 staff, supporting over 500 customers throughout the UK and abroad. The company has become one of the UK's leading providers of software, hardware and support services for a broad range of accounting systems (SunSystems, Exchequer and Pegasus), HR and payroll systems and Technical Solutions, which includes hardware supply, implementation & support and business continuity planning.

Castle Computer Services was founded 23 years ago in Edinburgh and in 2006 received a Deloitte Fast 50 award for being one of Scotland's fastest growing IT businesses, its fifth such award in six years.
