

Intelligent Business

Think where your business could be.

Make it happen with Pegasus Opera II.

OPERA^{II}
TM

Intelligent Business

Challenge your thinking

Does your business solution offer the functionality and flexibility you require?

Whether you want to grow your business, outperform the competition, bring products or services to market faster or take your business in a new direction, Opera II from Pegasus can help.

Opera II is a complete end-to-end financial management solution that can take your business to the next level. Which is why more than 20,000 businesses already use Opera II as their core management tool.

Opera II can help you to:

Discover the truth behind the numbers

Pegasus XRL is an award-winning Excel® reporting tool, for true insight into your business. With its flexibility, ease of use and advanced drilldown capabilities, Pegasus XRL delivers fast and accurate information to provide enhanced analytical power.

Make effective decisions

With **Executive Dashboards** you can access your KPIs in an instant. Executive Dashboards provide you with a visual representation of data in real time, and in a wide range of formats selected by you. What's more, if you want to dig deeper, you have powerful drilldown capabilities to underlying data.

Improve your close rate

Sales Pipeline Management gives you true visibility into all stages of your sales operation. It streamlines your procedures and tracks progression from initial lead to customer, helping you to improve your close rate.

Move to a paperless office

Save time, money and valuable office space with **Document Management**, a complete image capture and file management system. You can capture all your business documents and store them electronically, for instant access.

Stay in control

Opera II **Financials** and **Supply Chain Management** give you instant access to up to the minute financial and supply chain data, so you can efficiently track and analyse key information, improve productivity and make informed strategic decisions.

Receive critical alerts when you need them

If you've gone over budget, you need to know. **Pegasus Instant Messenger** (PIM) automatically sends real-time business critical information, in the form of a pop-up alert. A real-time reporting, scheduling and instant messaging tool, PIM helps you to manage and distribute business information quickly and easily.

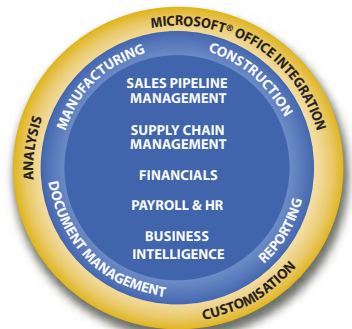

Simplify complicated payroll procedures

Opera II **Payroll & HR** has been designed to ensure complicated payroll procedures are simplified and performed automatically. It is accredited by HM Revenue & Customs for both the Payroll Standard and Pensioner Payroll Standard, for your added peace of mind.

Be change-ready

Companies need flexibility to take advantage of opportunities and respond to threats. In other words, be change-ready. Opera II is modular and flexible so you can customise the solution for your business and grow when you need to.
